2. Does it have the correct travel day?
 - a. If you have a red-eye flight, please pay close attention to the date and time on your itinerary! Note that *all red-eyes* require you to be at the airport the night before your project start date. For example, if your project starts on June 5th and your flight leaves at 12:30am on June 5th, you need to be at the airport on the night of June 4th.
3. Does it have the correct flight/city information?
4. If not, email the AMIGOS Travel Team as soon as possible at travel@amigosinternational.org
