

The Classroom Community Impact Project

Connecting Students from Houston and Brazil

For more than 55 years, AMIGOS has provided the safest, most authentic volunteer and immersion programs in Latin America for ages 13 to 22. Today, we are proud to partner with the Houston Independent School District to provide fully-funded leadership experiences to HISD students.

HISD Abroad is a novel initiative to expand equality of access to study abroad opportunities. Starting spring 2021, AMIGOS and HISD are bringing the Community Impact Project to the classroom!

The Community Impact Project gives you the chance to join a movement from home at a time when global connection and local action are more important than ever. Channel your energy into meeting new students across Brazil and Houston, developing your leadership skills, and collaborating to positively impact your communities.

Program Pillars

Connection

**Intercultural
Exchange and
Collaboration**

Service

Design projects that address our most pressing issues during this global crisis, and build a network of like-minded individuals committed to creating positive change. You will leave this program with a tangible service project design and a portfolio of your work to showcase on your resume, not to mention a new community that bridges borders.
